I have many friends, but Yang Shuyue is one of my best friends. She's short and thin. She has two big black eyes and long curly hair. She is cute, quiet and friendly. She always helps other classmates to do many things. And, of course, I also like her very much.

We are in the same class. We have a lot of hobbies in common. We like pink things and we like reading books. We often play together and study together. Everytime she has delicious food, she will give it to me. When I feel sad, she will stay with me and comfort me.

As the saying goes: a friend in need is a friend indeed. She is really a good friend. She is good at playing the piano. Her dream is to be an artist when she grows up.

This is my best friend. What about yours?

My favorite book is Percy Jackson and The Lightning Thief. The plot of the book is ingeniously conceived. The characters have strange features. I like it very much.

The book is about a teenage boy called Perseus Jackson, Percy for short. He lives in New York. He was a normal kid playing basketball, skate boarding etc. When he was twelve years old, he accidentally vaporize his math teacher. Then he went to a camp called Camp Half-Blood. There he found out his father Poseidon, god of the sea. And that Zeus, lord of the sky, thought this teenage boy had stolen his lightning bolt. Percy went on a quest to find Zeus's lightning bolt, to prevent the most greatest war in human history. At last, he succeed.

I love this book so much and even change my name to Perseus from Peter just this year. Do you want a try to read it?

Do you still remember the magic power of Elsa in the movie Frozen that she could make things frozen just by her super power? If I had that power, it can't be better.

When I raise my right hand, there would be many snow petals falling down from the sky. When I raise my left hand, all the flowers in the world would be in blue. When I feel sad and want to cry, my tears would be just frozen in the half way. And my school life would be just like Ice Latern Festival everyday.

Wow , that is amazing !

My hometown, Ningbo, is located in Zhejiang Province in Southeast China. It is a city with a long history, and it is also a beautiful and modern city.

If you like history, you can go to Tianyi Pavilion. It is one of the oldest library in China, and has a lot of old and precious books. You can also enjoy the old wooden buildings there.

If you like nature, you can go to Dongqian Lake. It is very big, with clean water and fresh air. It attracts many people every year. You can ride bikes, go boating and have barbecue here(改为 there). It is really fun.

If you are a foodie, you can come go to a right place. We have many kinds of sea foods, like crab, shrimp, and fish. Besides, we have sweet dumplings, rice cakes, peaches and so on. How delicious they are!

Now you know why I love my hometown. Welcome to Ningbo!

My father is from Hubei province, and my mother is from Jiangxi province. They always say that they were so lucky to choose Ningbo when they graduated. Also, I am so lucky to be their daughter. I love Ningbo, because it is a beautiful city with kind people. Before I went to the primary school, I lived in Haishu district, and my favorite place was Yuehu park. Now, I live in Yinzhou district, and my favorite place is Yuanshi park. Both parks are so amazing with so many trees and flowers. I have so much fun with my family and my friends in both parks.
