My parents and I came to Changlong Zhuhai. We lived in the Penguin Hotel.

There was a robot Penguin named little Q in the hotel. When I said "open the curtains " to the little Q, the curtains opened automatically, then I said "turn on the TV", the TV did at once. Wow, it was so amazing!

There was a penguin restaurant in the hotel too. We watched the penguins singing and dancing when we were having dinner. Also, there were many interesting sea animals, whales, sharks, polar bears. They were so cute! What a wonderful trip!

Fire is very dangerous. It brings us disaster and robs joy from many families. But it is also very useful and important to us.

For fire safety, we mustn't start campfires, because the fire might burn the trees and grass beside us, and then fire will start. In addition, we mustn't play near fires, because the fire might burn our clothes and even us. If a fire starts, we must go outside quickly, but we mustn't use the lift. Because it's dangerous inside. If everywhere is smoky, we must cover our mouth and nose, and crawl out. We mustn't stop for toys and clothes. When we are outside, we must listen to the fire fighters.

Fire can break out everywhere and burn out anything, we must be careful!
