Today, I went to celebrate Chinese New Year in my grandparents’ home with my family. I wrote spring couplets and stuck them on the gate to decorate my grandparents' house. A very important thing for our family was to have New Year’s Eve dinner. Those dishes were very deli-cious.

After dinner, we watched Spring Festival Gala on TV and played firecrackers. The fire-crackers were beautiful, but they were too loud. So I covered my ears. We stayed up very late to wait for the arrival of New Year.

What a fun day!

It all started with fishing at last weekend. My grandpa and I went fishing last Sunday. I felt so excited, because it is the first time I go fishing. We brought some baits, two fishing rods, two hooks and some lines.

The weather was nice. We went to a lake. I sat by the lake, lifted the fishing rod, and waited. I waited and waited. But no fish came here. I felt so sad. Grandpa said: “ When you are fishing, you should be quiet and patient. Then you will catch a fish.”

After a while, one fish came here. I got it! Fishing is so fun! I like it!

In the end, my grandpa and I got nine fish. That night we ate these delicious fish.

It was a great day. I hope I can go fishing again.

Riding bikes is my favorite activity. I like my bike very much. Mom bought it as a Birthday gift for me. I call it “Lightning”. It’s black and green, my favorite colors. My bike is bigger than my friends’ because I’m a tall boy. We always ride bikes together. We are a bike team.

Last weekend, I rode bikes again with my friends in the park. I won every race because my Lightning was the best bike in the world. My friends also wanted a big bike like mine, but they were shorter than me, a big bike could be danger-ous for them.

I think riding bikes is a great activity for ev-eryone.

There is a new park near my home. It’s not very big but smart.

You can see many tall trees and colorful flowers around the park. A little basketball court lays by the park. There are also several places for fun playing. Look! Two kids are swinging. Three girls are sliding. How happy they are!

In the middle of the park, there is a big lawn. It is round and the grass is so soft. I like sitting on the grass and enjoy the fresh air. Every evening, after I finish my homework, I’d like to run in this playground. When I’m tired, I can find a seat ev-erywhere. When I’m thirsty, I can drink warm water from the water tap in the park. . It’s so con-venient.

I like this park very much.
