My birthday is on March 16th. Last birthday, I invited three good friends to my home. That day I wore a pink dress. The dress was very beautiful. I got a lot of presents such as color pencils and books. I liked them very much.

First, we played in the park near my home. We rode the bike and played swings. We were so happy. It was time for dinner. My mother cooked pasta and steak for us. They were so yummy! I had a pink and heart shaped cake with ten candles on it. Then we sang the birthday song together. I made a birthday wish.

So great the birthday was!

The jungle is a magical place.

Though there is no ice,

There are many animals in this magical place.

The jungle wears a green coat.

People say it is a place full of magic.

Birds fly over the magic place,

Bears run through this magic place.

What a place!

Have you heard of the Science book series "The Magic School Bus"??

It is about a lot of interesting stories of science. For example, in a primary school, one class has unique ways of learning about the world with their teacher, Ms. Frizzle, going on a field trip and discussing in the class. The Magic School bus amazes me most because it can be anything and go anywhere.

I wish I can take a magic school bus like that, too. Do you want to join me? If yes, please read the book first. Enjoy!
