There are four seasons in a year. My favourite season is autumn. When autumn comes, the weather is very cool and windy. I can wear my new jacket to climb the hills with my parents.

In autumn, there are lots of fruits. There are grapes, oranges, apples, peaches and so on. They are sweet and yummy. I like eating them very much.

The most important reason is that my birthday is also in autumn. On my birthday, I can wear my pretty dress and shoes. My mother will make a big cake for me. My father will prepare a big meal. My friends will present me any birthday gifts. I am very happy on that day.

Autumn is beautiful and lovely. Do you like autumn?

## My home

Welcome to my home. It's not very big but very clean.

This is the living room. There is a sofa in it. It's small but nice. You can see a TV on the wall. A black tea table is between the sofa and the TV. There are always kinds of snacks on the table. My brother and I can have snacks when watching TV.

Look at my bedroom. It's small but nice. There is a bed beside the window. Near the bed, there are two desks. They're my brother's and mine. We have many books on the desk. We read books, do homework and draw pictures at the desks. There is a big shelf. It's full of books. Both my brother and I enjoy reading.

My home is clean and nice. I love my home!

Good afternoon everyone. I'm Justin from 401. As you know a good book is like a good friend. You would like to see it many times and never feel bored.

My favorite book is the Monkey King, which is a very long story. When I read it for the first time, I was attracted by the plot. I felt so excited and interested.

The monkey king is not only powerful, but also smart and brave. He can fly very high in the sky and dive deep in the water. He can turn himself into different objects. He has a magic stick, which can be short or long. He uses it to fight against the monsters. I am interested in reading it because he keeps helping the people and never gives up his dream!

No matter what difficulties you encounter, try your best and then the success is not far from you. I think it's the best book I've ever read.

So do you have your favorite book?

Hello, I'm Kern. Last summer vacation, it was good. I went to the hotel with my family. We went there by bus. The hotel was beautiful. The hotel had a swimming pool. I was swimming there. I ate delicious food at the hotel kitchen. In the afternoon, I go to the garden and took some pictures. I bought some souvenirs in the evening. Then I went to the room. The room was big and clean. I had a good time in the hotel.

This is my friend, shadow. It is black.

I go to school at seven o'clock. My shadow often follows me.

Sometimes my shadow is in front of me.

Sometimes my shadow is behind me.

Sometimes my shadow is slim and short.

Sometimes my shadow is huge and strong.

I like my shadow. It's my magical friend.

## Students Use iPads,

## Yes or No?

With the development of technology, people begin to use smart devices like the smart phones and iPads to make our lives convenient. But it's well known to us all that every coin has two sides. If something is good for us, maybe it's also bad for us. Now whether students should use iPads is a hot topic that is being widely talked about.

Different people have different opinions on this problem. Some people believe that students shouldn't use iPads before they go to college. They think students are too young to make themselves absorbed in study because of the influence of iPads. Others argue that iPads can help students with their English listening and they can download a lot of learning materials and read them on the screen.

My primary school headmaster is one of the people who share the view. When I was eleven years old, our headmaster bought twenty-four iPads to school. After that, we used iPads to learn in computer classes. It did us a lot of good. We learnt more things that we couldn't learn from our ordinary classes.

It tells us that if we use an iPads wisely, it will enrich our knowledge and colour our life. So in my opinion, whether the students can use iPads depends on how they use them.
