I have a collection of ancient coins. I started to collect them when I was five years old.
I have a lot of ancient coins. They were useful hundreds of years ago. People at that time could use them to buy rice, fish, pork, clothes and so on. I collect them because I can learn a lot of knowledge about the ancient time. I can learn about the wonderful Chinese calligraphy, as well. Therefore, I’ m excited each time I see them because they tell me that a lot of dynasties rise and fall in history.
I feel happy and satisfied to have them. They make my life colorful. What beautiful ancient coins I have! What a great collection I have!

Patience is Bitter, But Its Fruit is Sweet

Patience is bitter, but its fruit is sweet. Balzac once said: "out of the thorns, there is a boulevard covered with flowers." The successful blooming flowers was only admired by its bright when it opened, but its bud was soaked in tears of struggle and sprinkled with the blood rain.
What is success? Using your hands to create your own future, but not gain something by tricky. In the face of setbacks and mistakes, disappointment and negative attitudes will not help, so why not to be optimistic to life? May be you will be successful in other things.
After the storm and the rain, everything will back to normal, but some people dare not face difficulties, challenge themselves, they only want to go a shortcut, which will let the confident flagpole in your heart fall down worthless. In life, many people have made such mistakes, such as copying others’ compositions and test answers, and corruption and bribery.

Life will lose its charm if it is all smooth sailing. Haze has gone, and sky is clean like being washed by water, and the far street lamp, poured by rain, still stand there, illuminate the road ahead of me. We have no reason to stop trying, no pains, no gains!

I have a dream. I want to be a teacher one day.
There are many reasons. Firstly, I’ m happy with the kids. We can play games and read stories together. It’ s interesting, isn’ t it? Besides, my teachers set good examples for me. I like to follow in their footsteps. Anyway, I can teach others knowledge and make myself understood. It sounds so wonderful!
So how can I make my dream come true? First of all, we should study hard. It’ s important for us to base on the present, focus on the future. However, it’ s not enough to just make a decision. We should put it into practice. As the old saying goes, “Where there is a will, there is a way.” I’ m ready to try my best to get better grades. I hope that I won’ t regret one day.

Having a pet was my dream since I was three years old.
This spring my uncle bought me a kitten. I named her Xiangxiang because she smelled good! She was very fluffy like a fur ball with brown spots!
Xiangxiang is a sweet kitten. She likes to stay with me quietly when I do my homework. I guess she wants me to finish my homework quickly and then I can play with her.
Xiangxiang is a brave kitten. She never runs away even a dog barks at her. I think she wants to protect me.
I love Xiangxiang and she loves me too. I hope we can be friends forever!
