The 2022 Hangzhou Asian Games will star on September 10, 2022, there are will be more than 30 sports at the game. Among these events, my favorite sport is fencing.

Fencing originated in Medieval Europe and was considered an aristocratic sport. Now I am a fencer in The Jinshan primary school team. I especially like fencing, because fencing can exercise my concentration, reaction and explosive power. I hope everyone will enjoy this sport, also hope more and more people will participate in fencing!

The Lantern Festival

On the fifteenth day of the first lunar month every year, my family always have a big dinner at home because it is the Lantern Festival.

We especially like to eat Tangyuan, which represents reunion. After dinner, we go to Tianyi Square to see lanterns. In the evening, the streets are busy. all kinds of lanterns decorate the street very beautiful. They are in different colors, shapes and sizes, and each lantern has its own unique style. Some lanterns are beautiful big ships, some lanterns are lovely little animals, and some are very simple, only with several graphics. These lanterns are really different and lifelike. The street looks like a wonderful painting!

Then, we also play the guessing game. With my mother's prompt, I also worked out two lantern riddles correctly, and received a small gift. We all have fun.

What an unforgettable night!
