Spring is warm. I think we can drink some warm drinks. My mum is very thirsty and tired. So I want to make a large cup of sweet and warm milky tea for her.

How do I make it? This process has a few simple steps. It is like a journey. And it is long. We need milk, coconut powder, white cold powder to make nata de coco. We need mangoes, gelatin, sugar and water to make the pudding. We need tapioca, brown sugar and water to make pearls like bubbles. We need milk, black tea, water and brown sugar to make the tea. This is important and the other three are ingredients of milky tea.

And now, we can make tea. Put the brown sugar into the black tea. Pour the milk, boil the tea and put bubbles in. And pour it into a large cup. Then put pudding and nata de coco. The milky tea is finished.

This cup of milk tea is very sweet and warm. It makes my mum and me happy.

## My Brother and Me

In my wildest imagination, I am a little witch who can do magic like Harry Potter. I have a magic wand, which will take me to the sky and go all over the world. I will be strong enough to punish bad people and help those in need.

Even one day, I will go on a space trip. I will do my best to create my life value.

## My Favorite Festival

There are so many festivals in China, such as Spring Festival, the Mid-Autumn Festival. But everyone has their favorite festival.

For example, I like the Spring Festival best. Because students can have a long holiday to relax and play. And my family buy some beautiful clothes and delicious food for the new year. I am so happy because I get lucky money, meet the old friends and play the games. Brothers play the fireworks in the yard. We can stay up late. We can see many beautiful red lanterns and the big red character fu.

During the Spring Festival, There are many good memories. These are all about happiness. How wonderful the Spring Festival is!

## Make Some Tea

Tea is a traditional drink in China. Its subtle fragrance, its nice taste and its high status in the history are appreciated by generations of Chinese people. Drinking a cup of tea can release pressure and it is healthy for people's bodies.

How do I make tea? First, I boil the water in the teakettle. Next, I put some tea into the teapot. After that, I pour the hot water into the teapot. Finally, I pour the tea into small cups and bring it to my relatives.

How delicious the tea is! Not only does the tea release our pressure, but also it gives us energy.

Today, I am in the farm. I can see fresh vegetables, but I don't like vegetables very much.

"Look, what are those?" "They are sheep." "I like them, because they're so cute."

"Quack, quack!" "Oh, they are ducks. My favorite animal is duck. How many ducks are there?" "One, two three...ten. There are ten ducks in here."

I like this farm, the vegetables, the sheep and the ducks very much!

## My Dream Job

My dream job is to be a taxi driver.

First of all, a taxi driver knows so many beautiful sights and attractions in the city. I can also tell the customers which places are interesting.

And second, I can help people go wherever they want. And in this way I can earn money.

This job will certainly be interesting. I think I will like it.

## My Magic Box

I want to have a magic box and it can make entire dream come true.

It knows what I was thinking. For example, if I miss my mother. my mother will come out from this magic box immediately and my mother will become a normal mother in front of me.

It can cure all the sickness in the world. For example, after having this magic box, it will kill of all the bad bacteria and all of us will not have covid-19 and cancer any more.

It can make countless of homes for the homeless in the world. In this way, everyone can stay at home and play with their parents.

I really want to have a such magic box!

## An Unforgettable Experience

Last week, I had a nucleic acid test at school. It was the first time that I did the nucleic acid test. However, it was an amazing experience.

We stood in a line in the gym and kept 1 meter away from each other. It was so quiet in the gym, and I was a little bit nervous. It was my turn very soon, I sat on the chair and opened my mouth.

"Oh, my god! I could not breathe."

"Take it easy! Just relax!"

The very gentle voice made me brave. I could not see her face, but I felt the power. So, I did the nucleic acid test very quickly.

The next day, I got the result of the nucleic acid test. It was negative. I was so excited. My teacher told me that there are more than 2000 teachers and students in our school, and we only took 2.5 hours to finish the nucleic acid sampling.

I think if we have good habits and do sports, then we will be healthy, and we will not be afraid of the COVID-19.
