There is a girl named Alice. She doesn't like to make friends with others. All she wants to do is reading books in the attic study.

One day, she opens a book. The book is about an Ant Kingdom. What a SURPRISE! The book starts to glow. Oh! This is a magic book! It takes Alice into the Ant Kingdom. Wow, there are so many little ants. To my surprise, Alice becomes one of them.

All the little ants live together, play together and work together. They use their tiny bodies to carry foods, but the foods are too heavy to carry. However, they don't give up.

They tell Alice: Come on! Come on! Come on! You can do it! We can do it! Alice enjoys her time with her ant friends. With their encouragement, Alice becomes more and more cheerful.

After she comes back, she often studies, plays and helps each other with her good friends and she becomes happier and happier. I hope you will love my story and I hope you can learn something from it.

I think no one can live alone. We cannot live without friends.

Hello, everyone, I'm Ella. I am a student from Cixi Wengu Foreign Language School. I like drawing and playing basketball. Every time I draw, I have a lot of ideas in my mind. Then these ideas will be displayed on my drawing. And when I am depressed, I will play basketball which can make me happy.

Now I'd like to introduce my poster. The topic of my poster is Chinese New Year. The overall tone of my poster is red, which is also an important background color, because red is a festive color in China. In this poster, I also used some traditional Chinese elements such as Jin Yuanbao, fireworks and lion dance which can highlight the joy of people in welcoming Chinese New Year.

As one of Chinese traditional festivals, Chinese New Year is the biggest and most important festival for Chinese people. It's also a time for family reunions. On the eve of Chinese New Year, all family members gather together and enjoy a big dinner. On the first day of the new year, almost everyone is dressed in his or her best. Then they go out to visit relatives and friends and give lucky money to the elderly and children with their blessings. It is said that we can not clean up or spend money on that day, because it means we will get more wealth in the coming new year.

I like red. I like Chinese New Year. It's my honor to be a Chinese. That's all for my speech. Thank you.

Hello everyone, I am lucky. I come from Cixi CIJI experimental primary school. I think everyone has an imaginary world, and I imagine a world without an epidemic.

If there is no epidemic, the angel in white will not be so hard.

If there is no epidemic, now we are sure and students are happy to play.

If there is no epidemic, the street will be very very lively.

I hope my dream can come true, we can all live freely in a world without epidemic.

Hello everyone, I'm Bale. Today I want to talk about the four seasons.

There are four seasons in one year. They are spring, summer, autumn and winter.

Spring is warm. The green plants grow and grow. I can ride a bicycle outdoor. I can see difference flowers everywhere. I can see a lot of bees and butterflies flying in the flowers. They are so beautiful.

Summer is hot. I like eating ice-creams and watermelons. I can swim in the swimming pool. It's very fun.

Autumn is cool. The leaves are red and yellow. I can fly a kite in the park. The farmers can harvest lots of food in autumn. Winter is cold. The world is white when it snows in winter. We can make a big snowman. We can ice-skate on the ice, and it's very cool. We can also ski on the snow, and it's so interesting.

My favourite season is summer. Because I can go to the beach and enjoy a holiday. I can make many sandcastles on the beach. I use my hand to dig a footbath. I draw a lot of love on the sand with the tree branches. I can read many books in summer holiday. I love summer.

Thank you. See you!

A Special Twist I Enjoy

We can't predict the ending but we can try our best.

I enjoy reading and speaking. When I speak aloud, I feel like a star. So I entered the national youth reading talent show. There are many talented contestants. I was nervous that I may not be good enough. Thankfully, my family encouraged me, Don't worry. Just go ahead. We will always support you no matter what happens.

I wrote my speech, practiced in front of the mirror. I imagined everyone looking at me. I reminded myself to relax, to read loudly, clearly and beautifully. Finally the competition day came, I saw other children's performance. I was afraid. When it's my turn to stand on the stage, I nearly forgot my words. Then I saw my mom smiling at me. I felt better and tried my best.

I thought I would lose the competition. But I passed. I can enter the next round. My heart beat so fast. I felt over the moon.

This is my lucky twist. And let me share a moral with you: Even if the result isn't satisfactory, at least you won't have regrets, and you still have an unforgettable experience.

Last Sunday, I went to the Shopping Mall.

First, I chose a T-shirt. It was white. And there was a cute cat on it. It was nice.

Then, I chose a skirt. The price was eighty-one yuan. It was some little expensive! But it was so beautiful. I like it very much. So, my mum bought it for me.

Next, I tried on sunglasses. I chose a pair of black glasses. How cool!

Last, I went to the cashier desk. Oh, where was my wallet? I forgot it! Silly me.

I have a happy winter vacation. Because the Spring Festival is coming.

I had a big dinner and ate a lot of delicious food on New Year's Eve, such as sweet dumplings and rice cakes. They are our Chinese tradition food. After the dinner, I watched the wonderful Spring Festival Gala on TV. It was interesting and amazing.

At 10 o'clock, I also went outside with my mom and dad to set off the fireworks. Bang! Bang! It was very exciting. Fireworks rushed into the sky like a bright red flower. Our family all made a wish under the fireworks, hoping that next year would be better and better. Happy New Year!
